THIS IS UNEVALUATED INFORMATION

The Military Research Institute (Vojensky vyzkumny ustav) (VVO) in  
Prague is working on a television receiving device which could be  
used on board an aircraft for transmitting pictures taken from the  
aircraft. The research in the field of radio and television has pro-  
gressed more at the Military Research Institute than at the Czecho-  
slovak Broadcast Institute as the army appears to have better  
research means at its disposal.
